

Creative EDC Sample Site Assessment Report

Creative Site Assessment prioritizes sites so smart investments can be made in infrastructure, site certification, marketing, and development. This report shows the assessment of your site. Rank this site against other sites in your community to find out which one is your top priority site.

Product Development Outside the Box

Site Description: Creative EDC Sample Site - The site description is the place to write an overview of the site. The site description could include location, transportation connections, utility services, adjacent land uses, and other features. We recommend filling this space with information that makes readers familiar with your site.

Creative EDC Sample Site

Overall Score: 79 out of a possible 100 points

Bonus questions on rail service and proximity to port can push a score above 100.

Category Scores

Utilities: 36.5 out of a possible 46.5 points

Transportation: 12 out of a possible 17 points

Bonus questions on rail service and proximity to port can push a transportation score above 17.

Site Characteristics: 30.5 out of a possible 36.5 points

Creative EDC Sample Site

What does my score mean?

The higher the score, the greater the development potential. Scores are relative to other site scores in your community. Creative Site Assessment finds your best opportunity. Where does your site excel and where does it fall short?

- **Utilities** - If the score is less than 20, it falls significantly short in access to utilities and capacity.
- **Transportation** - Without rail or immediate port access, the maximum score is 17. Sites scoring less than 10 do not have a transportation advantage.
- **Site Characteristics** - Sites scoring less than 15 need to focus on preparation and due diligence.

Site Strengths - Interstate access, highway visibility, great location

Site Weaknesses - Lot size, topography, distance to markets
